A SIMPLE WAY TO MAKE A DOCTORS APPOINTMENT

When you next need to make a doctor's appointment, you can consider avoiding the journey to join the long queues at your Centro de Salud (health centre) and or save on the cost of calling a 902 telephone number.

If you have access to the internet you will be surprised at how simple it is. All you need to do is go to the Junta de Andalucía's webpage,(or the site in the region you reside in there are links below). Fill in your social security number, NIE and date of birth. This will take you to the page where you have the option of choosing the date and time to suit you. If there is not an appointment available at the chosen time, you will be given options of additional dates. Once you make your choice click on accept. You will be provided with a printable form with all the details. No printer? Jot down the details or save.

The only drawback is for anyone not acquainted with the Spanish language. There is an option for English but not always reliable. It would be worth taking the time and find someone to assist you in your first attempt. For future use you will find this approach is simple and very convenient.
